

For this project you have the following documentation available:

- **1. Guide to the project.pdf:** This document.
- **2. Group Project Task List.pdf:** This file contains the broad instructions and timeframes for the project. Read this document first to get an idea of what you will need to do during the course of the semester.
- **3.1. Packet Tracer goals and guidelines.pdf:** The guidelines for Group Task 3 are provided in this document. It is paired with the next document:
- **3.2. Packet Tracer Building Layout and Network Requirements.pdf:** This document contains the layout of the building for which the network has to be designed, as well as the requirements for each of the sections.
- **4. CMPG315 Disp. Prosess.pdf:** Finally, the disciplinary process and mark adjustment form is provided in this document. Ideally, no groups will have to use this, but it is made available to deal with group members that don't carry their weight.
